## DOCUMENTARY – LE REGARD DE GEORGES BRASSENS

At the start of his career, Georges Brassens bought himself a 16mm camera and filmed his parents, his friends and his lovers: figures remaining in the shadows. Kept by his family, his films tell of one of those "in between" periods in his life: between early recognition and growing success.

## YOUTH PROGRAM – LE PETIT NICOLAS

Young Nicolas is an impish and cunning schoolboy from the 1950s who constantly looks to shine in front of his gang of mischievous friends: Alceste, Geoffroy, Rufus... These adventures in 3D illustrate the blessed world of childhood as it is with its candour, imagination and impertinence.
