5 week Interest Modules.

COST : \$75

In term 2 we are offering opportunities over 5 X 1 hour weekly sessions, to immerse yourself into ANYTHING FRENCH in small group situations (minimum 5).

You may not be actively studying the French language now but would enjoy an opportunity to brush up on your French, simply by listening, commenting, watching or asking questions about what is offered in the Modules.

The Modules do focus on those, who are not native French speakers, and so need help with vocabulary, interesting expressions, cultural nuances etc. The presenters will use French and English as required.

Please contact your listed presenter to let them know you are interested or need additional information

Each week there will be a source article from news in France. The text will be available and audio of the text is slow-paced French. Source texts will deal with political, social, human interest, cultural, media (and even bizarre) issues etc which have made global headlines in France. The texts will be analysed for content, vocabulary and useful expressions then students will be encouraged to use spoken French to comment, ask questions, debate issues, ask for explanation etc and relate them to relevant issues in Australia.

Reading Club

Presenter of this Module, Laure Liss is French, a Teacher and a Librarian.

Over the years, many students have raised the issue of trying to actually READ French Books and this is your opportunity to try.

This module is not a literary analysis of French literature but an “easing into” a variety of French extracts with opportunities to extend vocabulary, immerse yourself in (or even meet up with) the French “Literary Tense” and extend your conversation skills to “talk about books”
